This volume is a collection of ideas of the past, present and future interrelationships among political science, education, socialization and public policy analysis, using both American and international perspectives and research findings. In addition to a thorough discussion of political socialization findings in a cross-national context, this book also uses a taxonomic approach in conceptualizing U.S. civic education during the 1960s and 1970s, with an update on the state of U.S. citizenship education in the 1980s. What is proposed here is a practical new model for organizing our political education curricula; one which is analytical, allows for a dynamic synthesis and stresses the importance of active decision-making and policy analysis as key elements in participatory democracy and citizenship education. Concluding recommendations, comments, interpretations and challenges to political educators and researchers complete this unique theoretical and empirical approach to political education.

### **Optimism and Posttraumatic Stress Disorder in Childbearing Women**

Citizenship is high on the agenda of education systems in many of the world's democracies. As yet, however, discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship. *International Perspectives on Citizenship, Education and Religious Diversity* brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions. Together, these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education. The chapters address and extend debates over the nature of citizenship in late modernity, highlighting local and global dimensions of citizenship in relation to issues of national, religious, ethnic and cultural identity. As well as emphasising the role religious education has to play in citizenship education, this book also covers wider issues such as state-supported faith schools and cultural diversity in relation to common citizenship. The authors argue that critical, yet reflective, approaches to religious education have a distinctive and valuable contribution to make to citizenship education. Issues addressed within the study of religions are related to new forms of global and cultural citizenship, as well as citizenship within the nation state. Ultimately, this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion, religions and religious diversity within an inclusive educational practice.

Encouraging the participation of girls and women in science, technology, engineering and mathematics (STEM) remains as vital today as it was in the 1970s. hence, the subtitle: “A Never Ending Story.” This volume is about ongoing advocacy on behalf of the future workforce in fields that lie on the cutting edge of society’s future. Acknowledging that deeply embedded beliefs about social and academic entitlement take generations to overcome, the editors of this volume forge forward in the knowledge that these chapters will resonate with readers and that those in positions of access will learn more about how to provide opportunities for girls and women that propel them into STEM fields. This volume will give the reader insight into what works and what does not work for providing the message to girls and women that indeed STEM fields are for them in this second decade of the 21st century. Contributions to this volume will connect to readers at all levels of STEM education and workforce participation. Courses that address teaching and learning in STEM fields as well as courses in women’s studies and the sociology of education will be enhanced by accessing this volume. Further, students and scholars in STEM fields will identify with the success stories related in some of these chapters and find inspiration in the ways their own journeys are reflected by this volume.

### **Girls and Women in STEM**

This monograph assesses the policies, programmes and services provided by the Departments of Education, Health and Social Development, and explores the potential of these for impacting on social crime prevention in South Africa.

»Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.
