Understanding and Teaching Emotionally Disturbed Children

Puppetry is an exciting, flexible, malleable art form that can engage the creative forces of children or adults. Puppets can not only tell a story, they can be used to enhance the curriculum, present an idea or a concept in a compelling way, or teach any number of necessary skills. Children and adults presenting a puppet play are given a sense of their own inventive power. This reference work offers an A to Z view of working with puppets. It covers everything from the basic strategies of advertising and marketing puppet productions, to assembling the puppets out of household materials such as paper bags, cereal boxes, or gloves, to the more elaborate sculpting of armatures. Stages, curtains and props are also discussed along with the history of puppetry. Numerous illustrations give a visual of many of the finished products. This work concludes with an annotated bibliography and index.

Sock Craft: Toys, Gifts, and Other Things to Make

What is the definition of play and the play curriculum? What tools and means are used to assess play development? How is a play classroom organized? What is the role of the teacher or caregiver in the play process? These are the four fundamental questions addressed by Wolfgang and Wolfgang in this practical, hands-on book. This clearly written, practical book focuses on teaching young children through a play curriculum. Utilizing methods and techniques that are solidly based in developmentally-appropriate theory and research, the text omits large sections of abstract theoretical material so as to encourage the practical application of concepts. Moreover, most chapters provide a list of practical activities, enabling readers to apply chapter ideas to real-life situations. Charts, classroom maps, checklist of materials, and new assessment instruments enable readers to easily apply the educational principles and practices. Early childhood educators, administrators, school counselors, day care workers, and parents.

Reaching Children Through Play Therapy

Research proves that the preschool child learns best through playful exploration of the environment. This book shows how the learning environment can facilitate teaching by providing a curriculum that addresses children's interests and needs as well as the teacher's task of choosing appropriate activities for children's development. It describes ten learning centers that allow children to choose and direct their own play, and how teachers can arrange the physical environment of a preschool classroom so they can observe and support children in these activities. This new edition continues its use of children's picture books in every chapter to introduce projects, and to integrate new activities based on the books themselves. There are 60 children's computer programs and applicable software also discussed, as well as other helpful tools designed to assist the preschool teaching staff.

Ready, Set, Go!

Various types of puppets and puppet plays are included in this book with scripts directed toward Christian education.

Child Guidance Through Play gives child guidance theory, constructs, examples, and practical suggestions for dealing with the difficult behaviors seen among most children ages 2 to 7. This text is invaluable in providing practical applications and techniques for preservice and inservice teachers who use a play-centered active learning philosophy. You will also find many suggestions for limit-setting and developmental methods using play to facilitate development of the child's social skills. Features Demonstrates teacher's actions in setting limits with cartoon-like figures, providing a quick reference to content topics (Ch. 3). Provides a listing of resources including Internet sites for parents and pre-service teachers to consult when dealing with difficult behavior (Ch. 8). Key concepts are illustrated and personalized through the use of vignettes. Chapter 8 offers an inventory for pre-service teachers and parents to determine the type of play philosophy that is compatible with their values. Includes techniques by noted scholars and psychologists, including Erikson, Mahler, Freud, and Piaget. Author bio: Charles H. Wolfgang has provided discipline training nationally and internally for over 25 years. He has been a classroom teacher at the preschool, elementary, and middle school levels; a counselor in a boarding high school; and a school principal and owner/manager of his own private preschool/day care center. His theoretical framework is based on his scholarly work as a professor of education at The Ohio State University, The University of Virginia, and Florida State University.
