This is a collection of twelve scholarly yet accessible essays that examine the history of the University of Hong Kong, from the laying of its foundation stone in 1910 to its reestablishment after World War II. The book provides fascinating insights into one of Hong Kong's most important and prestigious institutions, as well as scholarly contributions to the history of Hong Kong itself.

The Second World War marked an ethical turn in British fiction. The author of this study demonstrates this by closely examining John Fowles's and Iris Murdoch's works as post-war meta-textual magical-realist novels interested in ethics and the nature of contemporary reality. These ethical novels transcend mere morality to explore the essence of the Good. Through paradigms of human experience, they direct our attention towards the Other and impart moral principles based on acts of Goodness. The author assesses the moral intimations in Fowles's *The Magus* and Murdoch's *The Sea, the Sea* in the context of their philosophical writings, mainly *The Aristos* and *Metaphysics as a Guide to Morals* respectively. She shows that Fowles and Murdoch endeavour to instruct the reader morally through the accessible language of fiction.

This paper analyzes economic issues associated with German unification. The paper highlights that in the course of the process of German unification, the German Democratic Republic (GDR) ceased to exist as a separate state, the basic institutions of the east German economy were essentially demolished and replaced, and the governments of the Federal Republic of Germany (FRG) and the GDR were forced to make myriad unprecedented decisions on the structure of the economy that would influence economic policies for a long time and give rise to many new and difficult challenges.

Dieses Buch gibt einen einzigartigen Überblick über die Entwicklung der Sozialtheorie von 1945 bis heute. Nach einer ausführlichen Behandlung des Versuchs von Talcott Parsons, das Erbe der Klassiker Weber und Durkheim zu einer Synthese zusammenzuführen, werden die produktiven Widerstände gegen diesen Versuch (etwa Rational Choice und Symbolischer Interaktionismus) dargestellt. Danach geht es um die großen neuen Syntheseentwürfe seit etwa 1970 (Habermas, Luhmann, Giddens), aber auch um die kritische Fortführung der Modernisierungstheorie (Eisenstadt), Strukturalismus, Poststrukturalismus, Antistrukturalismus (Touraine), Feminismus, neue Diagnosen einer Krise der Moderne, den Neopragmatismus und die wichtigsten Aufgaben gegenwärtiger Arbeit. Das Buch behält den Duktus von Vorlesungen bei und liegt nun in einer aktualisierten Neuauflage vor. Eine vorzügliche Einführung für Studierende und fachfremde Leser.

»Superforecasting. Die Kunst der richtigen Prognose« eine Anleitung für treffsichere Prognosen in einer unsicheren Zeit. »Superforecaster« sind Menschen, denen erstaunlich gute Vorhersagen in allen Bereichen gelingen – bessere als den Experten. Was macht sie so besonders? In einem großangelegten Forschungsprojekt ist Philip Tetlock dieser Frage nachgegangen und hat das Erfolgsgeheimnis der Superprognostiker gelüftet. Anhand anschaulicher und unterhaltsamer Beispiele zeigt er, wie wir alle bessere Prognosen für unser Leben machen können – denn wenn wir darüber nachdenken, eine neue Stelle zu suchen, zu heiraten, ein Haus zu kaufen, Geld zu investieren, ein Produkt auf den Markt zu bringen oder uns zur Ruhe zu setzen, dann hängen unsere Entscheidungen davon ab, was wir von der Zukunft erwarten. Ein wichtiges und nützliches Buch, um sich in einer immer komplexeren Welt besser zurechtzufinden.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789–1824), the Register of Debates in Congress (1824–1837), and the Congressional Globe (1833–1873)
